Health Services

Please visit <http://health.ringling.edu> for any questions you may have about medical and counseling services available at RCAD.

Student Health Insurance

Ringling College requires all students to have health insurance. You can find out more about the plan, enroll, or fill out the waiver at <https://app.hsac.com/ringling>. Students with their own comparable plan must complete the waiver by September 15, 2016. New students must complete an enrollment form by following the same link.

Creating an account:

If you are enrolled in the student health insurance plan through Ringling College, you will be able to print or download your insurance card to your cell phone by following the directions outlined here: UnitedHealthcare StudentResources (UHCSR) provides a personal website to access things like printable ID cards, claims status, Explanations of Benefits (EOB's) and the ability to locate providers. Visit www.uhcsr.com to get started.

- To register, go to www.uhcsr.com and simply click the "Create Your Online Account Now" link from the top right corner under the brown header labeled "Direct Links." You should only need your name, date of birth and email address (use your Ringling email address).
- Please be advised that UHCSR has gone "green" and does not mail ID cards, so you will need to please register to print or download your UHCSR ID card.

Printing your card:

You will need to present your insurance card each time you visit a physician's office, as well as when you come into the on-campus health center, so please print your card as soon as possible. Printers are available for student use with your campus-issued notebooks in the Library, Goldstein 2 in Goldstein Village (the 24-hour lab) and in the lobby of the Student Center near Outtakes.

Please note that printing a card is not a guarantee of coverage until premiums are paid.

Making an appointment:

When you make an appointment with a provider, be certain that the provider is currently a Choice Plus provider. Frequently, patients ask "Do you take my insurance?" which most providers will. However, the appropriate question is to ask if the doctor, therapist, etc. is an in-network provider for your plan. Before making an appointment off campus, we encourage you to research the provider online and then confirm current status when making the appointment. In-network providers should know the protocol to determine the coverage available to you.

Thank you and please do not hesitate to contact our insurance representative with any questions following review or if you cannot access your personalized insurance website.
